

PathMaster Series Compatible Dimmers

For Models With 120 VAC Dimmable Driver Option

**PathMaster Product Series:
P2S(color)DIM
PH2S(color)DIM**

The following list of dimmers have been evaluated for compatibility:

- **Lutron Maestro: MAELV-600 (or similar)**
- **Lutron Diva: DVELV-600 (or similar)**
- **Lutron Radio-Ra: RAELV-500L**
- **Smarthome Instaon: 2476D**
- **Lutron Home Works of Grafik-Eye**
- **Vantage Lighting Systems**

NOTE 1: Other electronic low voltage dimmers may be compatible, but have not been tested by Chloride Systems to assure quality results.

NOTE 2: Do not use Leading Edge (typically labeled “incandescent”), magnetic or fluorescent dimmers.

NOTE 3: All power ratings and installation instructions from dimmer manufacturers’ instruction sheets must be followed.

NOTE 4: Dimmer control must have same AC input rating as the dimmable power supply driver it connects to.
