## Product Bulletin

### **CCL Steel Series Wet Cell Emergency Lighting Offering Reduced - Effective July 3<sup>rd</sup>, 2008**

Ongoing product offering rationalization has revealed the need to discontinue our CCL product line in all configurations. This discontinuation only affects our 6 VDC, wet-cell steel product. Historical and YTD sales of the CCL family do not warrant continued manufacturing support of these products. Please be aware that all product configurations in our TCL family are still available.

#### **ALL OTHER TCL PRODUCTS REMAIN UNCHANGED**

If you happen to get a request for high-wattage, wet-cell, steel product in a 6 VDC emergency operation you should make every effort to convert the order into a 12 VDC TCL product. Please find the enclosed, revised specification sheet and price sheet for the TCL Series for your records. As always, should you have questions or concerns regarding this matter do not hesitate to contact us directly. Thank you for your continued support.
